Projects

University Management System

Oct 2023 - Dec 2023

The University Management System is a Java-based application designed to streamline and automate various university administrative tasks. It features modules for managing student enrollment, faculty details, course schedules, and examination records.

Hotel Management System

Feb 2024 - Jul 2024

A Hotel Management System is a Java-based desktop application designed to streamline hotel operations, including room bookings, check-ins, check-outs, and managing customer information. It enhances efficiency by automating tasks, ensuring accurate records, and providing an intuitive interface for hotel staff.

Portfolio Website

Present

I developed a personal portfolio website to showcase my skills, projects, and professional journey. The website features a responsive design, built using HTML, CSS, and JavaScript, and includes sections like 'About Me,' 'Projects,' 'Skills,' and 'Contact.'

ShopEase

Present

A e-commerce website using React.js offers a straightforward user interface with essential features like product browsing, adding items to the cart, and viewing product details. It focuses on delivering core functionality and a user-friendly shopping experience.

Work Experience

Web Developer

Jul 2024 - Aug 2024

[Oasis InfoByte](#) | Remote

During my web development internship at Oasis Infobyte, I developed interactive and user-friendly web applications, including a to-do list and a calculator. The to-do list app enabled users to manage tasks effectively with features like adding, editing, and deleting tasks. The calculator was designed with basic arithmetic operations and a clean, responsive interface.

Web Developer

Jun 2024 - Jul 2024

[CodeAlpha](#) | Remote

I developed a personal portfolio website to showcase my skills, projects, and professional journey. The website features a responsive design, built using HTML, CSS, and JavaScript, and includes sections like 'About Me,' 'Projects,' 'Skills,' and 'Contact.' It highlights my completed projects with detailed descriptions and visuals, providing an interactive user experience.
